

This biographical sketch is in reference to being a delegate for the 2014 VEA and NEA conventions. I was an elementary K-5 librarian at the A G Richardson Elementary School in Culpeper, Virginia from 1982 until I retired in 2010. While teaching I belonged to both VEA and NEA. I served as building rep and was in charge of elections in my school. I attended most VEA and many NEA conventions during my teaching days. I enjoyed being a delegate and making decisions that impacted my school division and school divisions across Virginia and the United States. I miss doing this work and would like to be a delegate once again from the retired teachers point of view. Thank you for your consideration and vote.

James E. Matz
